

Bay Area Water Supply and Conservation Agency: “Making Conservation a Way of Life Strategic Plan Phase 1&2”

1. Added a regional Water Loss Control Program
2. Closer review on Landscape Water Use
3. Reviewing conservation programs in 2019-2020 to align with legislation & post drought
4. Developed a CII Web Based Portal to communicate/gather data from CII customers
5. Hosting AMI Symposium Workshop focused on best management practices

BAWSCA CII Pilot Project

The image shows a screenshot of a web form titled 'BAWSCA CII Pilot Project'. The form is divided into two main sections: 'Site Information' and 'Kitchen Facilities'. The 'Site Information' section includes fields for 'Site Name', 'Address', 'City', 'State', 'Zip', 'Phone Number', and 'Email Address'. It also has a section for 'Which months are your high season for occupancy?' and 'Which months are your low season for occupancy?'. The 'Kitchen Facilities' section includes a dropdown menu for 'How long after clean-up is required to be ready?' and a section for 'How long after clean-up is required to be ready?' with a dropdown menu for 'How long after clean-up is required to be ready?'. The form is designed to collect data from commercial water customers.

- ▶ Brand new tool under development
 - ▶ Tool will gather data directly from commercial water customers
 - ▶ Water agencies will gain information about current customer water fixtures
 - ▶ Potential to identify customers for:
 - ▶ rebates
 - ▶ engagements
 - ▶ water savings/audits

What are successful strategies to teach water auditors how to perform audits?

- ▶ Webinars to present background information and tools
- ▶ Classroom presentations with Q&A and mock simulations, as well as networking and partnership/resource building between participants
- ▶ Small group live audit modules in a “real” CII setting

Evaluating a commercial dishwasher

Evaluating an irrigation controller

Water Audits Training: Key Topics

4

- ▶ Water/Energy Nexus
- ▶ Overview of Water Audits
- ▶ Meters and Measurement
- ▶ Restroom Opportunities
- ▶ Cooling Tower Opportunities
- ▶ Hands-on Field Lab Rotation #1
 - Restroom: toilets, sinks and showers
 - Cooling Towers
 - Meters and measurement
- ▶ Reporting and Payback (Software Demo)
- ▶ Landscape Opportunities
- ▶ Kitchen Opportunities
- ▶ Hands-on Field Lab Rotation #2
 - Kitchen
 - Landscape
 - Working with AMI data
