Product & Mfg	Flume	Before Flume, homeowners had no means by which they could effectively measure their water use. Instead, they relied on monthly snapshots from their bill. Inspired by the cycle of drought in California and broad-based messages from utilities asking them to save water, Flume's founders created a solution that gives homeowners real-time insights: the Flume Smart Water Monitor and app. Flume empowers users with a DIY solution that offers minute-by-minute use information, leak detection, and personalized water budgets.	https://flumetech.com/	Clay Kraus	clay@flumewater.com	(303) 549-0566
Product & Mfg	Hunter Industries Inc	Hunter Industries is a global manufacturer of irrigation components for the residential, commercial, golf and agricultural markets. We also produce low voltage and line voltage landscape lighting systems for the professional installer. Helping our customers succeed is what drives us. While our passion for innovation and engineering is built into everything we do, it is our commitment to exceptional support that we hope will keep you in the Hunter family of customers for years to come.	https://www.hunterindustries.com/	Mike Madewell (So-Cal) Chris McNairy (Nor-Cal)	michael.madewell@hunterindustries.com chris.mcnaury@hunterindustries.com	(760) 583-4479 (Mike) (707) 695-3890 (Chris)
Product & Mfg	Pump Pod USA	We manufacture the DRAFTS Unit the premier "Full Flow" Water Recirculator designed for Fire Departments to use during training & pump testing. Each Unit saves between 4 to 8 Million gallons of water per year! The DRAFTS Unit is NOT a simulator it is the only product that allows real world full GPM and pressure flows from any and all nozzles which includes a working Portable Hydrant. The Unit also simultaneously prevents the Dry Weather Run-off of the same number of Gallons of water saved. We have teamed up with a dozen water agencies to help them meet their conservation goals.	www.pumppodusa.com	Bill Ward, Executive Director	bill@pumppodusa.com	(949) 246-6999

Product & Mfg	Rachio	Rachio is working at the intersection of residential water and technology to make sustainable water use effortless and personally rewarding. Founded in Denver in 2013, Rachio invented the first-ever smart sprinkler controller and remote watering app. Now on its third-generation technology, Rachio helps deliver the right amount of water to your yard, automatically, and has saved homeowners billions of gallons of water. Rachio's ecosystem of natural and sustainable yard care products create beautiful, thriving yards that are safe for kids, pets, and the environment. By continuing to research and evolve the right products for every yard, Rachio helps customers effortlessly bring their yards to life.	https://rachio.com/	Danielle Cummings, Senior Utility Manager	danielle@rachio.com	-----
Product & Mfg	Rain Bird Corporation	Rain Bird Corporation is a leading global manufacturer of irrigation products and services headquartered in Azusa, California. Founded in 1933, Rain Bird offers the broadest range of irrigation products for farms, golf courses, sports arenas, commercial developments and homes in more than 130 countries. Our commitment to The Intelligent Use of Water™ shows not only in our high-quality products but also through our expert water management professionals who share their passion for water conservation.	https://www.rainbird.com/	Rick Foster	rfoster@rainbird.com	(626) 812-3440
Product & Mfg	Shower Stream	Berkeley National Lab's studies show that 70% of bathers leave their shower empty after it's warm. This results in \$30,000 wasted per year for the average hotel. The Shower Stream Smart Shower System is a network of smart shower head adapters that install as easy as a light bulb, saves the waste, proves the savings via the web and is completely unobtrusive to the user. Here's a quick demo video: https://youtu.be/QVueYD-Ca70 .	https://showerstream.net/	Ian Howard	ian.howard@showerstream.net	(512) 644-0836
Product & Mfg	Waterless Co., Inc.	Since 1991, Waterless Co. Inc. has been the worldwide, industry standard for no-flush/non-water urinals. We offer the largest model line of waterless no flush urinals, specialty liquids for urinals and floor drains, fixture cleaners and deodorizers.	www.waterless.com	Klaus Reichardt	klaus@waterless.com	(760) 727-7723

Service Provider	A & N Technical Services, Inc.	A & N Technical Services, Inc. provides expertise in empirical policy analysis, economics, and statistics applied to water resources. The firm's team of professionals has broad experience in applications such as water efficiency and recycling, and water supply and demand estimation, and system optimization and simulation. We have worked for organizations such as the Water Research Foundation, RAND, USBR, the EPA, California Urban Water Agencies, CalWEP, the Alliance for Water Efficiency, and numerous water agencies.	http://www.antechserv.com	Thomas W. Chesnutt	tom@ntechserv.com	(760) 942-5149
Service Provider	Bottom Line Utility Solutions, Inc.	Bottom Line has been providing turnkey installations of water saving upgrades since 2000. Our scope of work includes plumbing and irrigation replacements for single-family, multi-family, commercial and public sector customers. We also have worked directly with numerous water agencies across the State for over 15 years, marketing and implementing direct install programs. Our value to agencies is that we can provide a quick and significant impact on demand side water usage. Our key to success is a long list of existing real estate and institutional clients, strong marketing programs to reach and enroll customers, and an award winning operations group that provides superior construction work and customer satisfaction. We are available to work with agencies looking to implement programs anywhere in the western States.	https://blusinc.com/	Rob Edelstein	rob@blusinc.com	(949) 933-6033
Service Provider	Dickinson Associates	Mary Ann Dickinson's new consulting firm, based in southern California, specializes in sustainable water resource management, drawing on over 50 years of experience in planning, policy, water resources, and water efficiency. We team with many well-known experts to address problems of drought, water scarcity in planning, and resilient sustainable policies and programs.	---	Mary Ann Dickinson	marvann@dickinsonassociates.com	(909) 225-0479

Service Provider	Eagle Aerial Solutions	Eagle Aerial Solutions has a long history of providing aerial imagery, geographic data and analytic services in California. The Eagle team is conducting the statewide irrigated vegetation analysis for DWR and is providing advanced parcel-level irrigated vegetation analysis for individual water districts throughout California. Eagle has teamed with CalWEP to develop the easy-to-use WaterView™ web-based water efficiency software that allows water districts to track their on-going efficiency from the district level down to the individual parcel, with tools to manage efficiency campaigns and customer communication.	www.eagleaerial.com	Jazmine Molloy	jmolloy@eagleaerial.com	(714) 754-7670 x700
