| Product & Mfg              | Flume                 | Before Flume, homeowners had no means by which they could effectively measure their water use. Instead, they relied on monthly snapshots from their bill. Inspired by the cycle of drought in California and broad-based messages from utilities asking them to save water, Flume's founders created a solution that gives homeowners real-time insights: the Flume Smart Water Monitor and app. Flume empowers users with a DIY solution that offers minute-by-minute use information, leak detection, and personalized water budgets.   | <a href="https://flumetech.com/">https://flumetech.com/</a>                       | Joe Fazio   | <a href="mailto:joe@flumewater.com">joe@flumewater.com</a>   | (949) 378-5453                                  |
| Product & Mfg              | Hunter Industries Inc | Hunter Industries is a global manufacturer of irrigation components for the residential, commercial, golf and agricultural markets. We also produce low voltage and line voltage landscape lighting systems for the professional installer. Helping our customers succeed is what drives us. While our passion for innovation and engineering is built into everything we do, it is our commitment to exceptional support that we hope will keep you in the Hunter family of customers for years to come.   | <a href="https://www.hunterindustries.com/">https://www.hunterindustries.com/</a> | Mike Madewell (So-Cal)<br>Chris McNairy (Nor-Cal) | <a href="mailto:michael.madewell@hunter.global">michael.madewell@hunter.global</a><br><a href="mailto:chris.mcnaury@hunter.global">chris.mcnaury@hunter.global</a> | (760) 583-4479 (Mike)<br>(707) 695-3890 (Chris) |
| Product & Mfg              | Pump Pod USA          | We manufacture the DRAFTS Unit the premier "Full Flow" Water Recirculator designed for Fire Departments to use during training & pump testing. Each Unit saves between 4 to 8 Million gallons of water per year! The DRAFTS Unit is NOT a simulator it is the only product that allows real world full GPM and pressure flows from any and all nozzles which includes a working Portable Hydrant. The Unit also simultaneously prevents the Dry Weather Run-off of the same number of Gallons of water saved. We have teamed up with a dozen water agencies to help them meet their conservation goals. | <a href="http://www.pumppodusa.com">www.pumppodusa.com</a>                        | Bill Ward, Executive Director                     | <a href="mailto:bill@pumppodusa.com">bill@pumppodusa.com</a>   | (949) 246-6999                                  |

| Product & Mfg | Rachio                | Rachio is working at the intersection of residential water and technology to make sustainable water use effortless and personally rewarding. Founded in Denver in 2013, Rachio invented the first-ever smart sprinkler controller and remote watering app. Now on its third-generation technology, Rachio helps deliver the right amount of water to your yard, automatically, and has saved homeowners billions of gallons of water. Rachio's ecosystem of natural and sustainable yard care products create beautiful, thriving yards that are safe for kids, pets, and the environment. By continuing to research and evolve the right products for every yard, Rachio helps customers effortlessly bring their yards to life. | <a href="https://rachio.com/">https://rachio.com/</a>             | Natalie Stone, Senior Manager of Utility | <a href="mailto:natalie.stone@rach.io">natalie.stone@rach.io</a>             | (920) 412-6030 |
| Product & Mfg | Rain Bird Corporation | Rain Bird Corporation is a leading global manufacturer of irrigation products and services headquartered in Azusa, California. Founded in 1933, Rain Bird offers the broadest range of irrigation products for farms, golf courses, sports arenas, commercial developments and homes in more than 130 countries. Our commitment to The Intelligent Use of Water™ shows not only in our high-quality products but also through our expert water management professionals who share their passion for water conservation.   | <a href="https://www.rainbird.com/">https://www.rainbird.com/</a> | Rick Foster                              | <a href="mailto:rfoster@rainbird.com">rfoster@rainbird.com</a>               | (626) 812-3440 |
| Product & Mfg | Shower Stream         | Berkeley National Lab's studies show that 70% of bathers leave their shower empty after it's warm. This results in \$30,000 wasted per year for the average hotel. The Shower Stream Smart Shower System is a network of smart shower head adapters that install as easy as a light bulb, saves the waste, proves the savings via the web and is completely unobtrusive to the user. Here's a quick demo video: <a href="https://youtu.be/QVueYD-Ca70">https://youtu.be/QVueYD-Ca70</a> .   | <a href="https://showerstream.net/">https://showerstream.net/</a> | Ian Howard                               | <a href="mailto:ian.howard@showerstream.net">ian.howard@showerstream.net</a> | (512) 644-0836 |
