

2026 PEER TO PEER

CONNECT. COLLABORATE. GROW.

May 27 - 28, 2026 in Napa, California

THE ONLY EVENT ENTIRELY DEDICATED TO Making Conservation a California Way of Life

For nearly 10 years, Peer to Peer has convened a highly engaged community of California's water efficiency leaders in an intentionally intimate setting. Unlike large trade shows or convention-style conferences, Peer to Peer is designed to foster meaningful connections—bringing together a focused group of practitioners, decision-makers, and partners for two days of open dialogue and shared problem-solving. Interactive sessions, small-group discussions, and ample networking time create opportunities for authentic conversations, relationship-building, and deeper engagement with the professionals shaping water efficiency programs across the state.

250 Water conservation & efficiency professionals

15+ Professional sessions to choose from over 2 days

96% of Attendees rate Peer to Peer as "Excellent"

What Are Attendees Saying?

"Peer to Peer gives me access to the most brilliant conservation minds in California. The attendees are innovative, collaborative and oh so friendly. This conference attracts the best of the best!"

"Peer to Peer is the most welcoming & collaborative water sector event that I know of. After attending for a few years, showing up feels like a big family reunion."
